About me

I'm a 24 year old student, currently in the last year of my Computer Science bachelor's degree.
I greatly enjoy programming due to its similarities to puzzle and problem solving. I am great at working together in team environments and always strive to learn more and improve, as an aspiring Computer Engineer and as a person.

Skills

MySQL

Python

C

GIT

HTML

JS

CSS

Java

(*)[The skill scale is from 0 (Fundamental Awareness) to 6 (Expert).]

Interests

I am interested in a summer internship concerning either back-end or front-end development, as both areas are extremely appealing to me.

I have a strong interest in physical activities, having played tennis for over five years and practiced swimming for over four years, and recently focused on maintaining a healthy lifestyle.

Music has also always been a great interest of mine, together with playing online games and socializing with friends.

Education

since 2014	BSc. in Computer Science	Instituto Superior Técnico
2011-2014	High school	Escola Secundária de Santa Maria

Relevant Subjects

Computer Networks
Concluded with an average of 15/20

Artificial Intelligence
Concluded with an average of 14/20

Computer Graphics
Concluded with an average of 15/20

Machine-Person Interfaces
Concluded with an average of 14/20

Experience

Programming Languages and technologies
I have previously coded in C, Java, Python, HTML, CSS, PHP, MySQL and have experience using NodeJs, OpenGL, Bash, and Git as well.

Transcriptions and Translations
When I find myself with free time I translate Portuguese audios to English and vice-versa, as well as perform English and Portuguese audios transcriptions.

Retail
I have worked in retail in several occasions, which has contributed to the general improvement of my soft skills, adaptability and reaction to unknown scenarios, as well as being involved in a teamwork environment.
